Mardan, Pakistan | +92 3401096664 | thehappyprogramer1@gmail.com | [Linkedin](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack MERN Developer with practical experience building scalable, secure, and user-focused web applications using MongoDB, Express.js, React.js, and Node.js. Developed full-featured platforms including e-commerce systems, LMS solutions, and job portals with JWT authentication, RESTful APIs, and responsive UI design. Strong foundation in JavaScript (ES6+), backend architecture, database modeling, and Linux-based deployment environments. Committed to clean code practices, performance optimization, and continuous technical growth.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, C++
- **Frontend:** HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, GSAP, Framer Motion, SwiperJS, Locomotive Scroll
- **Backend:** Node.js, Express.js, Flask
- **Database:** MySQL, MongoDB
- **Concepts:** REST APIs, JWT Authentication, CRUD Operations, MVC Architecture, Role-Based Access Control
- **Tools:** Git, GitHub, VS Code, Postman, Linux

PROJECTS

- **Job Portal Web Application (MERN Stack)**
Technologies: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, ShadCN UI
 - Developed a full-stack recruitment platform using the MERN stack with role-based authentication and JWT security.
 - Designed RESTful APIs to handle job postings, user profiles, and application tracking.
 - Implemented resume upload functionality and advanced search/filter system.
 - Structured backend using modular MVC architecture for scalability and maintainability.
 - Built responsive UI ensuring cross-browser compatibility and optimized performance.
- **Learning Management System (MERN Stack)**
Technologies: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, ShadCN UI
 - Engineered a scalable LMS platform supporting instructor and student dashboards.
 - Implemented course publishing, enrollment, and protected routes using JWT authentication.
 - Designed CRUD-based REST APIs for course and user management.
 - Applied modular backend architecture for improved maintainability and scalability.
 - Developed responsive UI with performance-focused component structure.
- **FurniSpace – E-Commerce Platform (Flask)**
Technologies: Python, Flask, HTML5, CSS3, JavaScript, Bootstrap
 - Developed a full-stack e-commerce platform for a BS final year project.
 - Implemented product catalog, shopping cart system, and user authentication.
 - Designed database schema and integrated backend routing using Flask.
 - Applied template inheritance and structured routing for clean backend architecture.

EDUCATION

- **Bachelor of Science (BS) in Software Engineering**
Virtual University of Pakistan
Expected Graduation: 2030
- **Intermediate (FSc) – Computer Science**
Government Degree College (GDC), Katlung, Mardan
Completed: 2023
- **Matriculation (Science)**
Government High School (GHS), Lund Khwar, Mardan
Completed: 2021
